

## HLTAID003 Provide First Aid

### COURSE OUTLINE

**LEARN**

**ADAPT**

**SUCCEED**

## FIRST AID WORKSHOPS

Learn the skills to provide first aid response in a range of situations until more advanced care arrives. This is a Nationally Recognised Training course.

- ⇒ Do you work in an industry that requires you hold a current first aid certificate?
- ⇒ Would you like to have the skills to assist in the event of a medical emergency situation?

## COURSE DELIVERY

The theory component of this course is delivered through our online student portal. Students are required to complete the learning material and the theory assessment prior to attending a 1 (one) day workshop, where they will complete the practical component of this course.

All training, assessment and student services for this course are provided by our trusted partner organisation, My Industry Training.

## WORKSHOP LOCATIONS

Locations include: Eagleby, Pacific Pines, Ipswich, North Lakes and Wynnum.

Contact us for dates and venues. Corporate bookings are welcome.

## COURSE COST

Course fee: \$140 (or \$120 for current Adapt Education students)

## COURSE OUTCOMES

Upon successful completion of this course, you will be issued with a Statement of Attainment for the following units of competency.

- ⇒ HLTAID003 Provide first aid
- ⇒ HLTAID002 Provide basic emergency life support
- ⇒ HLTAID001 Provide cardiopulmonary resuscitation

## ENTRY REQUIREMENTS

- ⇒ It is an expectation that you will have access to a computer/tablet/phone and the internet. Please discuss with Adapt if this is an issue as strategies can be put in place to assist.
- ⇒ It is expected that students have well developed Language, Literacy and Numeracy (LLN) skills. Students who do not meet the minimum LLN requirements for this course will be provided a range of options and strategies to assist.
- ⇒ Participants must have the physical ability to provide resuscitation. This involves kneeling on the floor, performing uninterrupted CPR for at least 2 (two) minutes.
